

Read the fact sheets and then talk about Antarctica with your child

Antarctica

You can find Antarctica at the bottom of the Earth. This is the area around the South Pole. Antarctica is a continent because it is an area of land, covered in ice.

No one lives in Antarctica because it is too cold. It has no towns or cities.

Scientists visit there for short amounts of time to study the ice and the animals.

Antarctica is known as the coldest and windiest place on Earth. Over 98% of Antarctica is permanently covered in ice because it is so cold!

There are 138 volcanoes in Antarctica but only 2 are active.

Mountains in Antarctica

Animals in Antarctica

There are lots of different animals that live in Antarctica.

Emperor Penguin

Emperor penguins are the largest of all penguins.

You can often see groups of up to 5,000 emperor penguins huddled together to keep warm.

Elephant Seal

Elephant seals are the largest of all the seals.

They can swim over 60 miles a day and dive over 1,500 metres.

Elephant seals spend most of their time in the ocean.

Orca

Orcas are often referred to as 'Killer Whales'.

Orcas live and hunt together in groups called 'pods'.

They eat fish, squid, seals, sea birds and whale species that are even bigger than themselves!

Draw a picture and
write a sentence about
where the Emperor penguins
live

Can I draw something
beginning with.....
