

Food Chains

Habitats provide food.

Without food living things have no energy and die.

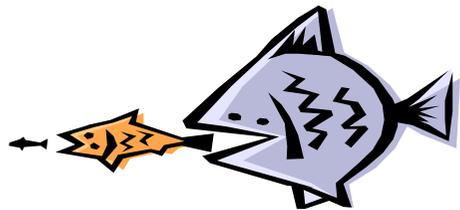

Many things feed on each other.

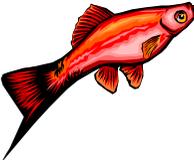

This is called a **food chain**.

Here are some animals that live in either a WOODLAND or SEA habitat.

Use them to make as many food chains as you can.

Take care that you put the correct combination of animals and plants together.

					
Clover	Shrimp	Oak	Slug	Fly	Falcon
					
Seaweed	Seal	Mouse	Bracken	Mistle Thrush	Fox
					
Puffin	Squirrel	Ant	Haddock	Caterpillar	Shark
