

Daily Numeracy Challenges-week beginning of 8.2.21

Monday

Class 4 are collecting data about favourite colours.

Colour	Number of children
Red	5
Green	8
Blue	7
Yellow	2

Make a block diagram using cubes to represent the data. Now draw the block diagram. What will the title be? Remember to label the blocks and draw a clear scale.

5 classes collected their house points.

Here are their results.

Which class collected the most house points?

Which class collected the fewest house points?

How many more points did Class 2 get than Class 4?

How many fewer points did Class 3 get than Class 5?

How many points did Class 2 and Class 3 get altogether?

Tuesday

Collect some data of your own using a tally chart. It could be data about the number of different

coloured pens you have in your pencil case, the number of different coloured jelly tots you have in a packet of sweets or it could be the number of different coloured cars that pass your window for a set amount of time. It is your choice! After you have completed your Tally chart, present your data in a bar graph. Remember to label your axis and give your graph a title.

Wednesday-see weekly plan for today's numeracy challenge

Thursday and Friday -see challenge attached to independent work
