

## Diwali Shadow Puppets

We have been learning about Diwali and how it is celebrated. In Year 1 we made puppets of Rama, Sita, Hanuman or Ravana and then used them to find out about shadows. We discovered that the shadows become bigger, fuzzier and lighter as we moved nearer to the light source and that there were no colours or faces on the shadows, unlike the puppets.

My shadow became bigger as I moved the puppet away from the board and nearer to the light source.

My shadow was dark and crisp when I held the puppet close to the board.
